REACH FOR

YOUR GOALS

Teachwell Solutions offers three different special education programs to prepare students for life after high school. Our comprehensive, supported transition services are focused on what a student needs and wants to accomplish as a young adult.

TEACHWELL TRANSITION SCHOOL PROGRAMS

Teachwell Solutions helps individuals with disabilities navigate life changes with confidence. We find fun and creative ways to blend classroom instruction with real-world learning experiences matched to student goals. Our team of success coaches, special education professionals and counselors work together to create a support system that helps students set and meet goals.

GOAL: LIFE SKILLS & ON-THE-JOB TRAINING

Teachwell Thrive helps students gain confidence and discover their potential. We provide a comprehensive life skills education that focuses on self-determination, problem-solving and decision-making. Our students participate in paid work experiences and benefit from individual coaching as they learn job-seeking and job-keeping skills.

SINCE 2009

GOAL: INTERNSHIP & EMPLOYMENT TRAINING

Teachwell Project SEARCH at Avera Health prepares students for fulltime work. We facilitate internships at Avera, empowering students to explore healthcare careers matched to their interests and abilities. Students receive individual support, personalized instruction and job coaching as they participate in three different 10-week internships.

NEW IN 2020

GOAL: COLLEGE READINESS & CAREER TRAINING

Teachwell Strive at Southeast Tech helps students transition to post-secondary education. We help students adjust to campus life and manage a personal schedule that includes college courses, career exploration and life skills lessons. Our team works to ensure every young adult learns skills that prepare them for a successful career.
