

## **5023.4 Bed Bugs**

Teachwell Solutions may remove students found to have bed bugs from the classroom. Any bugs found should be removed and collected for identification. If an active bed bug is discovered, the student's parent(s) or guardian(s) will be notified, and prompt, proper treatment will be required. Any other students residing in the same household or otherwise at risk of infection should be inspected as soon as possible after the initial diagnosis.

If bed bugs are found in a classroom or elsewhere in the building, the school will notify parent(s) and guardian(s) of all students so that the students' clothing and other belongings may be inspected before bringing them into the home. The school will not be closed due to a bed bug presence. If pest management is necessary, it will be provided to affected areas of the school.
