

5035 Student Discipline

Students who violate the rules adopted by the Teachwell Solutions program which the student is contracted to attend will face consequences up to and including cancellation of the contract through which the student attends the program. Teachwell Solutions will report all student conduct punishable under law to the student's resident school district. The resident district may take action pursuant to its student discipline policies and a resident district's refusal to take such action may be the basis for cancellation of the contract through which a student attends a Teachwell Solutions program.
