

## FUNDING PROPOSALS AND APPLICATIONS

East Dakota Educational Cooperative recognizes that grants from public and private sources periodically become available to help support specific programs and operations of the Cooperative. While grant funding sources may be a valuable supplement to the Cooperative and its educational programs, grant proposals may require monetary or in-kind contribution by the Cooperative.

The preparation of these proposals will be supervised by the Director and will be coordinated with the budgetary practices of the Cooperative.

Policy Adopted:        March 20, 1991  
Revised:                April 16, 2014
